Robotic Vacuum Cleaner Home Cleaning Robots

PERSONAL ROBOTIC VACCUM CLEANER 智慧型机器人扫地机

Model: **inova M285D**

Features:

- Slim 70mm thick design
- AI robotic vacuum cleaner with docking station operates with rechargeable battery, two side brushes and vacuum at the same time
- Capable of cleaning marble, wood, linoleum and tile
- Mopping functions with electrostatic paper for perfect dust cleaning
- With four clean programming “Random, Spiral, Along the wall and Z-type” to enhance maximum cleaning area
- Lower noise level 65db
- One button easy operation
- Specially designed “sweep and suck“ motion that hardly tangles hair
- Built-in anti cliff sensors reduce the possibility of the unit from falling down stairs
- Auto cut off power when wheel jammed
- Touch sensitive Bumper reduce the possibility of the unit being trapped by the furniture or obstacles, and it’s smart enough to get out of tight places
- The cleaning area is maximized with two side brushes design

*Specification:

Size:	285 (D) x 70 (H) mm
Weight:	1.5 KG including Battery
Adaptor Input:	AC 100-240V 50/60HZ
Adapter Output:	19 Volt, 600mA
Suction power:	6.75W
Consumption Power:	17-20W
Noise level:	65dB
BIN capacity:	0.21L
Battery:	1200/1500 mAH NiMH
Charging time:	8 hrs
Working time:	50 (+-5) mins
Built-In sensors:	Cliff sensor x3, Drop sensor x2, Touch-sensitive bumper x1, Bin stuck alarm sensor x1, Cover open sensor x1, Wheel stuck sensor x2
Environment:	Storage temperature -20 ~ 50C, Working temperature 0 ~ 50C, Working humidity 30% ~ 85%

SMART CLEANING PROGRAM

Random

Spiral

Along the wall

Z - Type
